Soufriere Cleared Part of St. Vincent of Every Living Thing.

DEAD BEING BURIED

The Estimate Is Placed at Sixteen Hundred—The Destruction Was Greater Than at St. Pierre as to the Scope.

Kingstown, Island of St. Vincent, May 16.—A correspondent of the Associated Press returned here, Thursday from a visit on horse back to the devastated district of the island, during which he traveled 50 miles and penetrated to within five miles of Soufriere crater.

The ash covered area of St. Vincent exceeds that of Martinique which the correspondent has also explored. The most conservative estimate of death rate he now places number at 1700. About 1300 bodies already have been interred.

The entire northern part of the island is covered with ashes to an average depth of 18 inches, varying from a thin layer at Kingstown to two feet or more at Georgetown. Crops are ruined, nothing green can be seen, streets of Georgetown are cumbered with

MOUNT SOUFRIERE, VOLCANO NOW IN EREPTION IN ST. VINCENT.

heaps of ashes resembling snow drifts and ashes rest so heavily on the roofs that in several cases they have caused them to fall in.

There soon will be 5000 destitute persons in need of assistance from the government which is already doing everything possible to relieve the sufferers.

There are 100 injured people in the hospital at Georgetown. Gangs of men are searching for the dead and rapidly burying them in trenches and all that can be done under circumstances is being accomplished.

British cruiser indefatigable brought 25 tons of supplies here and returned to the island of Trinidad for more.

The governor of the Windward Islands, Sir Robert Llewellyn, is here supervising the work of the authorities.

While the outbreak of the volcano on the island of Martinique killed more people out right, more territory has been ruined in St. Vincent, hence there is greater destitution here.

The injured persons were horribly burned by hot grit, which was driven along with tremendous velocity.

Twenty-six persons who sought refuge in room ten feet by twelve were all killed.

One person was brained with a huge stone nine miles from the crater.

Two days elapsed however, before there were any burials, as the negroes refused to dig the necessary trenches, though offered three times the usual wages by the local authorities.

Nurses employed are incompetent, but they are willing to learn and are working hard.

The negroes are indifferent to all that is transpiring and to what has taken place. They expect to receive government rations, but there have been instances where they have refused to bury their own relatives and in such cases will receive but little aid.

Since midnight Tuesday the subterranean detonations here have ceased

and Soufriere has relapsed, apparently into perfect reserve, no smoke rising from crater and fissures an emitting no vapor.

It is estimated the sea has encroached from 10 feet to 2 miles along the coast near Georgetown and that section on north of island has dropped into the sea.

This is apparently is certified to by reports of the French cable ship Pouyer Quartier that soundings now show seven fathoms where, before the outbreak there were 36 fathoms of water.

ST. PIERRE WRECK.

Approach to the City Described by an Officer of Val Kyrien.

St. Thomas, D. W. I., May 16.—The Danish cruiser Val Kyrien has returned here from Martinique. The correspondent here of the Associated Press has had an interview with one of her officers, who said:

"We left St. Thomas, the afternoon of May 9. The next day when 70 miles from Martinique the falling volcanic ashes became troublesome. We approached the island and discovered St. Pierre to be burning. We made signals to the shore, but no replies were received. We then lay off for the night and witnessed a remarkable spectacle of fire and lightning. Ashes fell and detonations were heard.

"In the morning we saw the French cruiser Suchet, and went nearer the shore. The ashes became dense, after we approached, and many dead bodies were floating on the sea. They were burnt and swollen and floating in groups, in some cases of ten each. The dead hands were knitted and the limbs were cramped. Nearly all the bodies were those of white persons.

"As we approached St. Pierre we saw the town was covered with ashes. We then joined the cruiser Suchet and the cable repair ship Pouyer-Quartier, and together went toward Le Precheur. The rain of ashes was heavy, and shrouded the Suchet. Soon the atmosphere cleared up and we ran close to Le Precheur and then to Hameau des Sabines. The boats from all three ships were put overboard and the rescue of people from the shore commenced at 11 o'clock and ended at 4, after rescuing 600 persons. They were taken to Fort de France."

SERIOUS SITUATION.

Soufriere Still Sending Out Noxious Vapors and Sickness Spreading.

Kingston, B. W. I., May 15.—No person has yet been able to approach within eight miles of the new crater of the Soufriere volcano. But, judging from what can be seen from a considerable distance, the old lake at the summit of the mountain has disappeared. The numerous fissures of the mountain sides continue to throw out vapor and the subterranean murmurings and tremblings indicate continued unrest.

The inhalation of noxious vapors

here is increasing the spread of sickness.

Starvation threatens the poorer classes of the afflicted district.

Nearly every remaining negro hut in the Carib country contains decayed bodies, and the horrible stench is driving people away. Mutilated bodies are tied with ropes and dragged to the trenches where they are buried. Some times bodies are cremated.

The local government is feeding and sheltering about 3000 refugees.

Extinct Volcano Near Austin.

Austin, May 16.—The fact is little known, except to geologists, that there is an extinct volcano located within eight miles of Austin. The great destruction wrought by the unexpected eruption of Mount Pelee has attracted attention to the proximity of Pilot Knob, the volcanic mound, near Austin. That in the long ago Pilot Knob was in an active state of eruption is very plain, even to those who have little knowledge of geology. The lava which flowed from its crater extends to a point within three miles of Austin. The lava stones cover a wide area of country surrounding Pilot Knob.

It is said that there are other extinct volcanoes in the extreme south western part of Texas in the rough country bordering on the Rio Grande.

The late J. Sterling Morton was a great man in more than one sense. His modesty kept his light hidden; that was all. The New Orleans Picayune tells us that when Mr. Morton's wife died he had erected over her grave a tombstone bearing the inscription: "Caroline France, wife of J. Sterling Morton and mother of Joy, Paul, Carl and Mark Morton." "Why did you put the boys' names in?" inquired a friend of him one day. "I took my boys out to the cemetery," said Mr. Morton, "and showed them their mother's grave. 'Boys,' I said, 'your mother is buried here. If one of you does anything dishonorable or anything of which she would be ashamed if she were alive, I will chisel your name from her tombstone.'"

There is no busier man than the editor—that is, if he attends to his business, and if he doesn't he soon ceases to be an editor and is compelled to look for a job. And the trouble with the vocation is that nothing can be put off. Today's paper must come out today; this week's edition must be in the office in time to reach the rural subscriber at the appointed time. A lawyer can postpone his case, a preacher can occasionally miss a sermon; even a doctor can ease up in his daily routine, but the paper can't be postponed. It is from day to day and from year to year until the harness breaks and the rules are turned on the editorial page.—Houston Post.

Gov. Jeff Davis, of Arkansas, is coming in for some vigorous and well merited roasts for pardoning a negro convict upon condition that the latter would emigrate to Massachusetts—the biggest fool thing a southern executive has done for many a year.

Miss Lizzie Cook, the lady candidate for county clerk of Van Zandt county, received only 175 votes in the primaries. Women rarely ever fare well in politics.

REFUSE TO INTERFERE

President Will Not Stop the Shipment of Mules at New Orleans.

NO LAW TO PREVENT

It Is Not Believed Any Further Steps Will Be Taken in the Matter by Louisiana—Proceedings of the House and Senate.

Washington, May 16.—As the president after considering the report of Col. Crowder has decided that he cannot interfere with the cattle shipments at Port Chalmette, and as the executive is the only branch of government clothed by the constitution to pass upon application of the laws of neutrality, as expressly affirmed very recently by the Louisiana courts, it is not believed here that the Louisiana state authorities will seek to make any issue in the federal courts by undertaking to do what the president himself has not seen fit to do.

It is presumed that the course of the executive's decision will be communicated to the governor of Louisiana, who first brought the Port Chalmette operations to the attention of the national government.

The Senate.

Washington, May 16.—An extended speech by Mr. McLaurin of Mississippi in opposition to the pending Philippine government bill was a feature of Thursday's session of the senate. The Mississippi senator vigorously assailed the administration's policy in the Philippines. He deprecated the outrages perpetrated in the islands, whether they were committed by the Filipinos or by the Americans. They were in his judgment, the natural outgrowth from the government's policy for which he maintained the Republicans were responsible. He urged the abandonment of the policy in the interest of humanity and justice.

The House.

Washington, May 16.—The house Thursday was plunged into an exciting debate on Philippine affairs. The naval bill received only scant attention after the allegation of Philippine outrages were presented. A speech by Mr. Vandiver of Missouri reciting instances of alleged outrages brought on the discussion. Personalities and recriminations were freely passed about. Mr. Vandiver was supported in his criticism by Mr. Wheeler of Kentucky while vehement defense of the American soldiers were made by Mr. Hepburn of Iowa, Mr. Crow of Pennsylvania, Mr. Hill of Connecticut, Mr. W. A. Smith of Michigan and Mr. Lessler of New York.

Davis' Assassin Caught.

Fort Smith, Ark., May 16.—John Williams, the negro burglar, who came so near killing P. R. Davis Thursday, has been arrested at Cherokee Station, about eight miles from this city. A couple of officers, riding on a train from Van Buren to Cherokee, noticed a lame negro on the side of the track. Stopping the train, they went back and found the man they were after. He had a bullet hole in his left leg. He will be kept in Van Buren until things get cooler here. Davis, the victim of Williams' murderous assault, is not yet out of danger, but his condition is improving.

Town Lots May Be Leased.

Guthrie, O. T., May 16.—Recent decisions of the interior department and the Territorial school land department affect greatly the cities of Lawton, Mountain View and Luther; because it allows them to lease school lands for townsite purposes. This gives Lawton 80 acres additional. Luther 80 acres and Mountain View the entire townsite of 640 acres. The town lots are leased by the Territory direct to the residents.

VOTE TO STRIKE.

They Will Not Return to Work Under the Present Conditions.

Hazleton, Pa., May 16.—The anthracite mine workers in convention late Thursday decided to continue the strike of the 145,000 men against the mine owners, and to fight it out to the end. The matter of calling the engineers, firemen and pump runners will be decided later.

It is predicted that the most serious labor struggle in the history of the country, if not the world, is about to begin. This view is taken by nearly every miner. It is not unlikely that the miners' fight will be carried into the bituminous coal regions and into other fields of industry. Mine workers for 18 months have been looking forward to the strike that is now upon them. They have saved their money and are considered to be in better shape for a fight than they were in the great strike of 1900. The workmen fear that the present fight may mean the destruction of their organization, because they believe that the mine owners are bent more on wrecking their union than they are in opposing the demands for higher wages and shorter days.

President Mitchell's advice to the miners was for peace.

It is said that a telegram was read from the Federation of Labor advising against a permanent strike.

GREAT STRIKE ON.

All Miners in the United States May Be Called Out.

Hazleton, Pa., May 16.—The great coal strike which was inaugurated permanently Thursday evening, is now in full swing.

There were no developments at the reassembling of the convention in secret session shortly after 9 o'clock this morning.

The convention adjourned sine die at 11:45 a. m.

The delegates voted to leave the question of calling out the engineers, firemen and pump runners to district officers.

Steps were taken by the convention to involve in the strike all bituminous and anthracite coal miners in the United States, by action of a special national convention.

President Mitchell said if a general strike did take place it would involve altogether 449,000 men employed in and about the coal mines of the United States.

Mrs. Laura S. Webb,

Vice-President of Women's Democratic Clubs of Northern Ohio.

THERE ARE MANY sickly women between the ages of 45 and 55, but there are very few invalids over 55 and 60 years of age. The change of life coming to a woman near her forty-fourth year, either makes her an invalid or gives

her a new lease on life. Those who meet this change in ill health seldom live ten years afterward, while a woman who lays aside the active duties of womanhood in health seldom fails to live on in happiness, years after she has passed 60. This is truly a critical time.

Mrs. Laura S. Webb, of Toledo, Ohio, recognizes the change of life as a dangerous period and she also has faith in Wine of Cardui. She writes:

"As I had always been troubled more or less at the menstrual period, I dreaded

the change of life which was fast approaching. While visiting with a friend I noticed that she was taking your Wine of Cardui, and she was so enthusiastic about it that I decided to try a bottle. I experienced some relief the first month, so I kept on taking it for three months and now I menstruate with no pain and I shall take it off and on now

until I have passed the climax. I do not dread it now, as I am sure that your Wine of Cardui will be of great benefit at this time."

Wine of Cardui is the remedy to re-inforce a woman against the shock that comes with the change of life. It re-establishes healthy functions after years of suffering. In doing this it has saved thousands of sufferers just in time. Do not wait until suffering is upon you. Thorough preparations should be made in advance. Begin the Wine of Cardui treatment today.

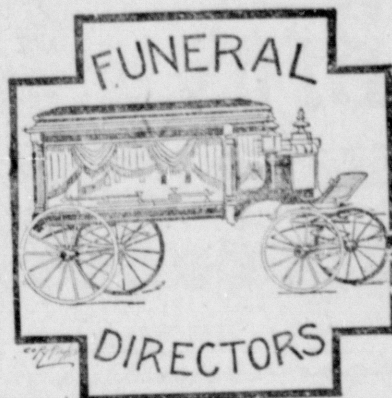

A million suffering women have found relief in Wine of Cardui.

REFUSE TO INTERFERE

President Will Not Stop the Shipment of Mules at New Orleans.

NO LAW TO PREVENT

It Is Not Believed Any Further Steps Will Be Taken in the Matter by Louisiana—Proceedings of the House and Senate.

Washington, May 16.—As the president after considering the report of Col. Crowder has decided that he cannot interfere with the cattle shipments at Port Chalmette, and as the executive is the only branch of government clothed by the constitution to pass upon application of the laws of neutrality, as expressly affirmed very recently by the Louisiana courts, it is not believed here that the Louisiana state authorities will seek to make any issue in the federal courts by undertaking to do what the president himself has not seen fit to do.

It is presumed that the course of the executive's decision will be communicated to the governor of Louisiana, who first brought the Port Chalmette operations to the attention of the national government.

The Senate.
Washington, May 16.—An extended speech by Mr. McLaurin of Mississippi in opposition to the pending Philippine government bill was a feature of Thursday's session of the senate. The Mississippi senator vigorously assailed the administration's policy in the Philippines. He deprecated the outrages perpetrated in the islands, whether they were committed by the Filipinos or by the Americans. They were in his judgment, the natural outgrowth from the government's policy for which he maintained the Republicans were responsible. He urged the abandonment of the policy in the interest of humanity and justice.

The House.
Washington, May 16.—The house Thursday was plunged into an exciting debate on Philippine affairs. The naval bill received only scant attention after the allegation of Philippine outrages were presented. A speech by Mr. Vandiver of Missouri reciting instances of alleged outrages brought on the discussion. Personalities and recriminations were freely passed about. Mr. Vandiver was supported in his criticism by Mr. Wheeler of Kentucky while vehement defense of the American soldiers were made by Mr. Hepburn of Iowa, Mr. Crow of Pennsylvania, Mr. Hill of Connecticut, Mr. W. A. Smith of Michigan and Mr. Lessler of New York.

Killing at Waco.
Waco, Tex., May 16.—Nick Frazier, a young man formerly of Lampasas county, was shot through the brain and bowels Thursday, dying instantly. The shooting occurred in an upstairs room on Austin avenue, where gambling is conducted. Immediately after the shooting Charles R. Henry of Belton

Miss Lizzie Cook, the lady candidate for county clerk of Van Zandt county, received only 175 votes in the primaries. Women rarely ever fare well in politics.

Submerged to Death. Barker and his admitted to bail in the sum of \$2500. He had no trouble in finding sureties. Justice Williams held an inquest and ascertained from the testimony of witnesses that Frazier attacked Henry with a cane and gave him several violent blows. Henry then drew his six-shooter and fired twice. The trouble between the two men was of long standing.

Davis' Assassin Caught.

Fort Smith, Ark., May 16.—John Williams, the negro burglar, who came so near killing P. R. Davis Thursday, has been arrested at Cherokee Station, about eight miles from this city. A couple of officers, riding on a train from Van Buren to Cherokee, noticed a lame negro on the side of the track. Stopping the train, they went back and found the man they were after. He had a bullet hole in his left leg. He will be kept in Van Buren until things get cooler here. Davis, the victim of Williams' murderous assault, is not yet out of danger, but his condition is improving.

Town Lots May Be Leased.

Guthrie, O. T., May 16.—Recent decisions of the interior department and the Territorial school land department affect greatly the cities of Lawton, Mountain View and Luther; because it allows them to lease school lands for townsite purposes. This gives Lawton 80 acres additional. Luther 80 acres and Mountain View the entire townsite of 640 acres. The town lots are leased by the Territory direct to the residents.

Texas Press Association.

Gainesville, Tex., May 16.—The twenty-third annual session of the State Press association practically closed Thursday noon. The officers elected are: C. N. Ousley, president; R. E. Yantis, vice-president; J. T. Robinson, secretary; C. T. Lehman, treasurer; W. G. Sterrett, orator; Mrs. Buchanan, essayist; Mrs. Mary Winn Smoots, poet.

The next session will be held in Waxahachie.

VOTE TO STRIKE.

They Will Not Return to Work Under the Present Conditions.

Hazleton, Pa., May 16.—The anthracite mine workers in convention late Thursday decided to continue the strike of the 145,000 men against the mine owners, and to fight it out to the end. The matter of calling the engineers, firemen and pump runners will be decided later.

It is predicted that the most serious labor struggle in the history of the country, if not the world, is about to begin. This view is taken by nearly every miner. It is not unlikely that the miners' fight will be carried into the bituminous coal regions and into other fields of industry. Mine workers for 18 months have been looking forward to the strike that is now upon them. They have saved their money and are considered to be in better shape for a fight than they were in the great strike of 1900. The workmen fear that the present fight may mean the destruction of their organization, because they believe that the mine owners are bent more on wrecking their union than they are in opposing the demands for higher wages and shorter days.

President Mitchell's advice to the miners was for peace.

It is said that a telegram was read from the Federation of Labor advising against a permanent strike.

GREAT STRIKE ON.

All Miners in the United States May Be Called Out.

Hazleton, Pa., May 16.—The great coal strike which was inaugurated permanently Thursday evening, is now in full swing.

There were no developments at the reassembling of the convention in secret session shortly after 9 o'clock this morning.

The convention adjourned sine die at 11:45 a. m.

The delegates voted to leave the question of calling out the engineers, firemen and pump runners to district officers.

Steps were taken by the convention to involve in the strike all bituminous and anthracite coal miners in the United States, by action of a special national convention.

President Mitchell said if a general strike did take place it would involve altogether 449,000 men employed in and about the coal mines of the United States.

Mobile to Kill Mosquitoes.

Mobile, May 16.—Mobile is to make war on mosquitoes. The city council has adopted the ordinance submitted by the board of health for extermination of the pest by use of kerosene and paraffine oil and making appropriation for the purpose of carrying the ordinance into effect.

Hardware Combine Falls.

Birmingham, Ala., May 16.—A telegram has been received in this city announcing the hardware combine, known as the National Hardware and Metal company had fallen through. The reason given for the collapse of the project was that some of the largest hardware companies had announced their withdrawal from the scheme.

Cumberland Presbyterians.

Springfield, Mo., May 16.—The seventy-second general assembly of the Cumberland Presbyterian church in the United States met in this city. The attendance is unprecedentedly large. Rev. E. E. Morris of Marshall, Mo., the moderator, preached the opening sermon. Rev. S. M. Templeton of Clarksville, Tex., was elected moderator over R. M. Tinnon of Denver, by a majority of 20 votes.

Mrs. Laura S. Webb,

Vice-President of Women's Democratic Clubs of Northern Ohio.

Mrs. Laura S. Webb.

HERE ARE MANY sickly women between the ages of 45 and 55, but there are very few invalids over 55 and 60 years of age. The change of life coming to a woman near her forty-fourth year, either makes her an invalid or gives her a new lease on life. Those who meet this change in ill health seldom live ten years afterward, while a woman who lays aside the active duties of womanhood in health seldom fails to live on in happiness, years after she has passed 60. This is truly a critical time.

Mrs. Laura S. Webb, of Toledo, Ohio, recognizes the change of life as a dangerous period and she also has faith in Wine of Cardui. She writes:

"As I had always been troubled more or less at the menstrual period, I dreaded

the change of life which was fast approaching. While visiting with a friend I noticed that she was taking your Wine of Cardui, and she was so enthusiastic about it that I decided to try a bottle. I experienced some relief the first month, so I kept on taking it for three months and now I menstruate with no pain and I shall take it off and on now until I have passed the climax. I do not dread it now, as I am sure that your Wine of Cardui will be of great benefit at this time."

Wine of Cardui is the remedy to re-inforce a woman against the shock that comes with the change of life. It re-establishes healthy functions after years of suffering. In doing this it has saved thousands of sufferers just in time. Do not wait until suffering is upon you. Thorough preparations should be made in advance. Begin the Wine of Cardui treatment today.

TWO CARLOADS OF TRUCK

Will Leave Today for the Markets—A
Busy Scene.

The Bryan compress building
presented a busy scene yesterday,
with the truck growers packing
beans and potatoes for a carload
shipment today. There was a fine
lot of truck, the potatoes being
large, smooth and the finest kind
of stock. Likewise as fine a lot of
beans as could be grown anywhere
on earth were being picked in neat
third-bushel boxes and prepared
for shipment.

It was contemplated to ship only
one car today when the arrange-
ment was first made, but receipts
were so heavy yesterday that it is
now apparent that two cars will be
filled.

Some returns for beans and oth-
er truck were received yesterday
which were satisfactory, though
not fancy prices. Beans netted
about \$1 a bushel.

The two solid cars will go by
freight, well iced, being refrigera-
tor cars. The railroad company
say they will put them through on
passenger time. The destination
will not be decided until about the
hour of shipment today, depend-
ing upon the latest wire reports
from the markets.

A young lady of Bryan lost a valu-
able piece of jewelry, and advertised
for it in The Eagle—a crescent
brooch, set with pearls and diamond.
Mr. S. A. Weddington, of Derita,
N. C., was visiting his brother, R. L.
Weddington, of Bryan, and found
the brooch at the depot, just before
leaving for home. After arriving
home he received a copy of The Eagle,
sent him by his brother, and noticing
the advertisement, mailed
the piece of jewelry to his brother,
to be delivered to the owner. Talk
about walking out of The Eagle's

ARRESTED AT QUEBEC.

Gaynor and Greene in Hands of Officers for Alleged Savannah Frauds.
Quebec, May 16.—Colonel John F. Gaynor and Captain W. D. Greene, who forfeited their bail at Savannah early in March and fled to Canada were placed under arrest by officers connected with the United States secret service and Chief Carpenter of the Montreal detective force Thursday. The arrests were made on warrants issued in Montreal, Chief Wilkie's men assisting the Canadian officers to make the arrests.

The men were hurried on board a swift little tug, which had been kept in waiting at the wharf. Ten minutes after Greene and Gaynor were safely on board the boat, steamed out into the river and started toward Montreal.

When notified of her husband's arrest, Mrs. Gaynor at once consulted Mr. Techreaut, her husband's attorney. A tug was chartered and an attempt was made to overtake the boat on which Gaynor and Greene were being carried away.

After a short chase it was seen by those on board the pursuing tug that it would be impossible to overtake the detectives' boat, the Spray, one of the swiftest tugs on the St. Lawrence, and the pursuit was abandoned.

On returning to the city it was decided to charter a special train and attempt to head off the Spray at Three Rivers, between this city and Montreal.

The tug Spray, with Chief Carpenter, his aids and Colonel Gaynor and Captain Greene, prisoners, passed Three Rivers at 7:15 o'clock Thursday evening under full head of steam. Two Quebec policemen and two detectives on the ferryboat Glacial attempted to stop the Spray, but before the ferry boat reached the middle of the river the Spray was 100 yards in the lead and gaining rapidly.

The chase was kept up for two miles, when the ferryboat and officers returned to the city.

The arrest of Greene and Gaynor caused some little excitement, where both men have become well known.

They Were Not Kidnaped.

Montreal, May 16.—Marion Evan of Macon, Ga., district attorney for the Southern district of Georgia, swore out warrants before Judge Des Noyes, calling for the arrest of John F. Gaynor and Capt. Greene, the two contractors, and indicted in Georgia, in connection with frauds at Savannah. The extradition of wealthy Americans in Quebec has in the past been attended with a great deal of difficulty and so Mr. Erwin, following out a plan of action, devised to secure possession of the two men, laid his information in the Montreal courts.

The pursuit of the tug Spray by the Quebec authorities is probably due to a misunderstanding of the situation owing to the quick arrest there. The provincial police at Quebec evidently think Gaynor and Greene were kidnapped by American officers, but they were legally arrested by Quebec officials.

Wilkie Laid the Plans.

Washington, May 16.—The kidnapping and subsequent arrest of Gaynor and Green at Quebec was the result of a carefully laid plan of Chief Wilkie of the secret service. It was denied that the department had sent men to apprehend the fugitives, but it was later learned that Inspector Bennett, Burke, Taylor and three others had been assigned to the case.

The expectation here is that when arraigned before the Montreal authorities, Messrs. Gaynor and Green will endeavor to secure their release by habeas corpus proceedings. An effort in that line will be vigorously resisted by Mr. Erwin, who has employed a well-known firm of attorneys of Montreal to assist him in whatever proceedings are had.

The confident belief of the officials here is that this government will be able to secure the extradition of the two men, in which case they will be taken to Savannah for trial.

Hope to Release Gaynor.

New York, May 16.—Counsel in this city for Col. Gaynor and Captain Greene, who were arrested at Quebec and landed at Montreal after an exciting chase by their friends, were in constant telephone communication with Quebec, and expressed the opinion it was a simple matter to secure the release of the prisoners on writs of habeas corpus.

They state their clients are now charged with embezzlement which is extraditable. The charge hereto for having been in a conspiracy to embezzle, is not an extraditable offense. To prove actual embezzlement it must be held that accused had actual control of the funds and no one, the attorneys declare, has ever held Gaynor and Greene were disbursing agents of the United States.

Gaynor Remanded until Monday.

Montreal, May 16.—Col. Gaynor and Capt. Greene, who arrived here early this morning in charge of United States detectives from Quebec, were taken before Judge LaFontaine, the extradition commissioner, and remanded until Monday next.

Receiver Appointed.

San Antonio, May 16.—Upon the application of W. J. Simmons et al S. C. Eldridge has been appointed receiver of the Loan and Deposit Company of America, a concern that has been doing business here for several years. Oscar D. Borring is president of the company. No statement of the condition of the company has been made yet other than that the outstanding obligations are \$15,000.

IF YOU WANT TO SELL that farm or those City Lots you are hereby notified that we would be pleased to have them on our list as early as possible in order to have them well advertised before summer.

The great success we had last season and the enormous amount of advertising and rustling we are doing at present is conclusive evidence that we are going to do the largest business ever done in Central Texas, this season.
